

Summer Boot Camp

Brush up on Math, English, and Reading Skills

CACC is offering a FREE opportunity to brush up on Math, English, and Reading skills in order to better prepare for the Accuplacer Placement Exam.

Take advantage of this great opportunity to bypass remedial courses in Math, English, and Reading.

Many students enter their first year of college underprepared for college-level work. A majority of students end up spending their first one or two semesters taking remedial courses in order to get caught up. These courses do not count toward a degree, they do not transfer to four-year institutions, and they do not qualify for dual enrollment.

Save yourself valuable time and money by brushing up on your skills now so that you can jump into college-level coursework as soon as possible. You must take the placement test first to see if you qualify.

Contact Kathleen Thompson at 256-215-4332 or kthompson@cacc.edu for more details and to see how to qualify.

High school graduates and dual enrollment students with applications on file for Fall 2017 are welcome!

Sessions start as early as June 5th. See schedule for individual locations.

Specifics

Who? Any CACC applicant who has taken the Accuplacer and tested into MTH, ENG, or RDG courses below the desired level.

When? Two-week sessions throughout the summer. Day and evening sessions will be available. Attend as many sessions as you like.

Where? All four CACC locations.

Don't miss out on this great opportunity to speed up your entry into college-level coursework!
Take your placement test soon to see if you qualify!
