

Course Auditing

Students may apply to audit one or more courses without credit. Nursing courses are not open to audit. The same registration procedure is followed as for courses carrying credit and the same fee is charged as courses bearing credit. Credit hours will not be averaged into the grade point average. A grade of “AU” will be reflected on the transcript.

The desire to audit a course must be declared at the time of registration and may not be changed after the first official day of class has started for the semester/term. It is the responsibility of the student to notify the instructor that the student is auditing the class and not receiving credit.
